Operating Income: FY22 Operating Income forecast is equal to budget. Operating Revenue and Operating Expense forecasts reflect \$15.5M additional HEERF II/III funding and corresponding support expenses, as well as increased research activity versus budget. FY22 YTD Actual Operating Income is temporarily inflated due to timing - net tuition revenue is recognized at the beginning of each semester but expenses are recognized throughout the fiscal year.

Undergraduate Enrollment: FY22 Undergraduate Net Tuition forecast reflects higher New England Regional enrollment, partially offset by higher financial aid expenses versus budget. Undergraduate Financial Aid includes aid charged to grants; however, Undergraduate Net Tuition per Student excludes grant-funded financial aid.

Graduate Enrollment: FY22 Graduate Net Tuition forecast reflects higher non-resident gross tuition, offset by increased financial aid expenses versus budget. Graduate Net Tuition fluctuates throughout the year due to differing programmatic schedules. Graduate Financial Aid includes aid charged to grants. FY22 Budget for Graduate Enrollment was not collected as part of the budget process.

Non-Credit Tuition: FY22 forecast reflects lower PD&T revenue versus budget due to the continuing impacts of COVID-19 on in-person professional programs.
